

Drainage (Thriller) by Kenya D. Williamson

Logline: When her father dies in a grim accident, Kyra Jaffe moves away from her abusive mother, but moves in with a remorseless killer.

Synopsis: Kyra and Joey broke up before her father's death. But, all that seems inconsequential now. They're back together. And their new life promises serenity – something Kyra'd never had before. All they need is a new home. But, that new home comes with new neighbors.

The previous tenant of Kyra's apartment is missing. Vibrant and beautiful, Melanie lit up a room. She could steal any man. And the police will soon find her dead. If the other tenants know anything, they're not telling – just hiding and sharing each other's secrets, looking over their shoulders and revealing just enough to befriend their building's recent arrivals. But, the evidence is mounting. And someone Kyra knows is a killer.

Kyra wants to trust her new friends. And more than anything, she wants to trust her boyfriend. But, while she closes in on the killer's identity, Kyra quickly discovers a murderer will do whatever it takes – including killing again – to keep the truth from coming out... friendship or not.
